

001

DRAW

Draw 3 straight Green lines on the page. Any length, any angle.

THEN

Repeat DRAW with a different colour for 2 minutes.

002

DRAW

Draw a Straight line the length of your thumb on the page. If there is already a line, draw the new one touching one end.

THEN

Repeat DRAW with a different colour for 2 minutes.

003

SETUP

Cover your sheet of paper in randomly placed dots black dots. Spend 30 seconds doing this.

DRAW

Flip a coin.

If it's heads, draw a red circle around one of the dots.

If it's tails draw a blue X over one of the dots.

THEN

Repeat DRAW for 2 minutes.

004

SETUP

Roll a dice. Starting from the top left of your paper, write that number. Repeat this 40 times to write a grid of numbers, 5 across and 8 down.

DRAW

Roll the dice twice.

Connect those 2 numbers with a straight line (if the number isn't there, roll again).

THEN

Repeat DRAW until all numbers are connected to one other.

005

SETUP

Using black: Draw a straight line corner to corner on your paper.

Pick a point along the first line and draw a straight line to one of the other corners. Do the same to the remaining corner.

You should have 4 triangles on your page.

For each triangle, Draw a line from each point to its opposite side. This should split each triangle into 6.

005 (CONTD)

DRAW

Pick a triangle. Flip a coin.

If it's heads:

Divide the triangle into 6 like before.

If it's tails:

Roll the dice.

If it's 1 or 6 use red.

If it's 2 or 5 use green.

If it's 3 or 4 use blue.

Fill in the triangle with lines starting from its top corner.

THEN

Repeat DRAW until all triangles are filled with colour.
